

Emergency Area Light

ESAL351

The 360° Lantern is our most versatile Emergency lantern ever, combining extraordinary brightness and run-time. Built to excel in emergency conditions, it gives you the advantage of all-around illumination and hands-free operation. Simple to operate, the highly-visible glow-in-the-dark switch gives quick access to 3 power modes: high mode for maximum brightness and an impressive runtime to keep the largest of spaces brightly lit; low mode for an exceptional runtime during extended power outages; and night light mode for an extended diffused area light perfect for soft illumination. PowerSwitch technology offers the convenience of using different battery types — 3 'D' Energizer Max batteries for maximum performance or the popular 'double-A' size — a perfect solution if you only have those on hand. Its durable construction offers reliable impact- and water-resistance for peace of mind in all weather conditions.

Lumens	Runtime	Drop	Water Ingress	Beam Distance
 500 LUMENS	 30h	 1m	 IPX4	 17m

- DESIGN BENEFITS**
- ✓ PowerSwitch Technology offers the convenience of using different battery types
 - ✓ Water resistance for peace of mind in all weather conditions
 - ✓ Reliable construction
 - ✓ Glow-in-the dark switch

- PERFORMANCE BENEFITS**
- ✓ Up to 10X brighter than standard LED technology
 - ✓ High mode for maximum brightness
 - ✓ Low mode for an exceptional runtime
 - ✓ Night light mode for an extended diffused area light
 - ✓ USB Port out – charges devices

- LIGHT AND POWER SOURCE**
- ✓ Features LED Technology
 - ✓ Operates on 3 D or 3 AA Batteries

BATTERY SPECIFICATIONS

Battery Type	ENR Max Alkaline, EVR Gold Alkaline
Battery Size	D
Number of Cells	3

PRODUCT SPECIFICATIONS

Weight:	494 Grams / 17.4 Ounces
Dimensions:	97mm x 101mm x 208mm 3.82" x 3.98" x 8.19"

BATTERY PERFORMANCE

Modes	Lumens (lm)	Runtime (h)	Beam Distance
High	500	30	17
Low	100	90	--
Nightlight	---	500	--

ELECTRICAL CHARACTERISTICS

Nominal Power Consumption:	3 D 5.6W 3 AA 4.29W
Batteries:	3 D Energizer E95 4.5V dc 3 AA Energizer E91 4.5V dc
LED Specifications:	3 D LED 3.0V cc / 1600 mA 3 AA LED 3.0V cc / 1300 mA

BATTERY SPECIFICATIONS

Battery Type	ENR Max Alkaline
Battery Size	AA
Number of Cells	3

DISCLAIMERS

Tested according to ANSI FL1 Standards. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

BATTERY PERFORMANCE

Modes	Lumens (lm)	Runtime (h)	Beam Distance
High	475	8	13
Low	100	28	--
Nightlight	---	500	--

CERTIFICATES AND COMPLIANCE

Other Modes
High, Low, Nightlight

EMC, EN62471, FCC

Publish Date: 11-12-2020

OPERATING INSTRUCTIONS

1. Press on/off button to turn on.
2. Press 1X for High.
3. Press 2X for Low.
4. Press 3X for Nightlight.
5. Hold to dim light gradually.

BATTERY CHANGING INSTRUCTIONS

1. Batteries are user replaceable.
2. Unscrew tail cap and insert batteries into lantern with (-) end up while the other two are (+) side up. This is true for both accepted types of batteries. Full instruction visible when tail cap is unscrewed.
